

Cloud for Government

Cloud is the perfect solution for an industry that relies on constant communication and collaboration between employees across multiple locations. RapidScale's Cloud for Government helps your government organization boost workforce productivity, cut costs, and enhance agility across every sector.

Security

Government entities rely on having the highest level of security. With RapidScale's Tier 3 Class 1 data centers, all sensitive information will remain safe and secure at all times.

Scalability

RapidScale's Cloud for Government network is extremely scalable, which allows government agencies to respond to rapid and urgent needs in a timely and effective manner.

Cost Savings

Organizations can pay for the exact cloud resources used, allowing your government agency to take advantage of the cloud according to your specific budget.

Efficiency

Experience high performance, scalability, and availability, and streamline your processes in all areas. Cloud is the most efficient way to respond to operational requirements.

A Modern, Innovative Government

With modern technologies and emerging trends, government organizations are becoming eager to reshape operations and services. Cloud for Government can facilitate this process, creating a connected, modernized and innovative government. In a sector as critical as the government, it's important for agencies to take this step into modern computing while working with world-class, reliable cloud computing services like RapidScale's.

The cloud makes it easy to connect employees in the office, in the field, or across the world. Your users can log into a secure cloud environment from any device and collaborate on team projects, promoting remote work and increasing overall productivity.

Cloud computing lets federal, state and local government agencies offer a variety of self services to citizens. Citizens can access services, request statuses, monitor energy and water consumption, and more through Web-based user portals provided through the cloud solution. RapidScale makes it easy to connect consumers to the services they need.

Cloud Security

RapidScale delivers nothing but the highest quality protection for your data and information. We have equipped ourselves with the best-in-breed facilities to hold your sensitive information for safe, encrypted storage in our SAS70, SSAE 16 Tier 3, Class 1 data centers. Every one of our data centers feature on-premises security guards, key card protocols, biometric scanning protocols and around-the-clock interior and exterior surveillance monitor access. Our facilities are engineered to the highest of standards in order to ensure your business is running 24x7x365.

Cost Efficiency

One of the biggest advantages of the cloud is that it promotes greater optimization of IT resources and greatly reduces capital expenses and operating costs. Instead of building for maximum capacity, you can purchase cloud space with RapidScale's pay-as-you-go model to meet your specific storage needs. With the cloud, you will never pay more than necessary. RapidScale's cloud gives you automatic updates as well as eliminates the headache of hardware refresh.
