Google Cloud

Make Collaboration a Competitive Advantage

G Suite makes developing business strategies, collaborating with multiple offices and executing with teams easier than ever.

- **Innovate faster, together.** Intelligent, cloud-based apps allow teams to collaborate from anywhere, in real time.
- **Get more done.** User-friendly tools boost productivity ensuring your teams spend more time on work that moves your business forward.
- **Spend less time on training.** Give employees the enterprise tools they already know how to use.

Enterprise-Grade Security, Controls and Auditing

G Suite Enterprise offers enhanced security, controls, and customization. With G Suite Enterprise, your organization can:

- **Enhance Google Drive security.** Add another layer of protection to prevent sensitive information from being revealed to those who shouldn't have it.
- **Scan email traffic for specific content.** Set up policy-based actions when sensitive data like credit cards or social security numbers are detected.
- **Scan images for text.** Identify and mitigate loss of confidential data in scanned images.
- **Analyze audit logs in BigQuery.** Use advanced and customized queries.
- **Automate mobile device management tasks.** Set custom rules that get triggered when suspicious events are detected.

A Suite of Intelligent Apps
