Transform Your Business with Google Cloud

Envision what's next for your organization with the power of Google Cloud and the expertise of SADA. SADA provides white-glove services to businesses of all sizes and verticals, accelerating innovation and driving customer success.

Accelerate Your Cloud Adoption with SADA

Cloud Migration Expertise: Our experts have migrated over 25 million users to the cloud. We ensure a seamless migration, allowing your team to remain focused on growing your business.

Application and Custom Development: SADA's team of experts focus on your overall goals and strategy to engage your users with high-performance websites and applications designed with business objectives in mind.

Technical Account Management: SADA's TAM team serves as a dedicated technical advocate, aligning business drivers with technology. TAM helps with billing optimization by monitoring GCP spend and offering billing support.

Enterprise Support/Managed Services: Our award-winning managed services department provides the 24/7 support you need to achieve optimal security and reliability by proactively monitoring your systems to find and resolve vulnerabilities or issues.

Google Cloud Platform Benefits

Global Network

Leverage one of the largest and most advanced computer networks to deliver fast, consistent and scalable performance.

Redundancy

Data is automatically mirrored across storage devices in multiple locations around the globe.

Scalability

Applications hosted on GCP can automatically scale up to handle demanding workloads and scale down when traffic subsides.

Integration

Build the way you want. Google integrates with familiar development tools to make it easy to build within GCP.

Versatility

Mix and match to meet your business needs. Flexible virtual machines and a fully managed platform allow for greater computing, services and storage options.

Functionality

Use Google APIs and services to quickly enable a wide range of functionality for your application. Easy integrations eliminate the need to build from scratch.

Drive Value and ROI on Your Cloud Investment

SADA is a privately-held global leader in providing business and technology consulting services that transform organizations through innovative cloud-based solutions. As a Google Cloud Premier Partner, SADA has proven expertise in enterprise consulting, cloud platform migration and deployment, custom application development, managed services, user adoption and change management.

Discovery >>	Architect >>	Delivery >>	Customer Success
<p>We take the time to understand critical business and technical requirements facing our customers.</p>	<p>Design multi-phased solutions which allow for the gradual adoption of technologies unique to 3rd-wave cloud computing.</p>	<p>Migrate and implement planned solutions in accordance with our multi-phased approach to cloud architecture.</p>	<p>Continuous consultation, guidance, best practices, and break-fix support for holistic environments, including Google as well as non-Google technologies.</p>

SADA Systems helped us gain a deeper understanding of the advantages of Google Cloud Platform so we could make better decisions about how our application would perform and scale. They provided the facilitation, follow-up, and expert advice we needed to make our deployment a success.
